Boliva killed Matron, he told the district attorney, because after his marriage to Matron's stepdaughter she told him that Matron had attacked her the day before the wedding.

## A Paying Investment

By ELLA WHEELER WILCOX.

WHEN a business man hears of a sure investment which will yield him, five percent, he does not hesitate long about putting his money into it.

Even a three percent profit he does not scorn. I can suggest an investment which will yield always three percent and usually five if you will go into it thoroughly. The stock is known as "Ten Percent." Others call it "consideration." Suppose you invest in it for one week to begin with. If at the end of that time you have received no dividend, you can tell me I have advertised a worthless stock.

Begin tomorrow morning at home. Think of some agreeable thing to say and do before you leave the house.

### TODAY'S AMUSEMENTS

MARGUERITE CLARK.

Lovers of high-class motion pictures will have their last opportunity today of seeing Marguerite Clark, in the excellent feature, "Still Waters," at the Alhambra. Marguerite Clark scores as the girl brought up on a canal boat by her grandfather. Much of the charm of the picture lies in the simple country life of the uneducated maiden, inflated by a young country doctor. It is a character conceived by a woman and interpreted by one of her own sex, having been written by Edith Edwards Deane, especially for Miss Clark, and contains amusing comedy, dramatic moments, and ends in a pleasing climax. Tomorrow the Alhambra will show the big Vitaphone
